## EXAMINER'S AMENDMENT

### *Priority*

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Europe on September 20, 2002. It is noted, however, that applicant has not filed a certified copy of the (EPO) 02021024.1 application as required by 35 U.S.C. 119(b).

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gigette M. Bejin on May 19, 2004.

The application has been amended as follows:

"latch mechanism (not shown)" [0016] has been changed to --latch mechanism 2c--.

"grille opening reinforcement assembly" [0018] has been changed to  
--grille opening reinforcement assembly 5a--.

"14carried" [0028] has been changed to --14 carried--.

"cooling system 20" [0032] has been changed to --cooling package 20--.

Regarding claim 1:

"the first lifting member" (line 19) has been changed to --the lifting member--.

"be brought to" (lines 19 and 20) has been deleted.

"said hinges" (line 20) has been changed to --said hinges, --.

"carrying it" (line 20) has been deleted.

Art Unit: 3612

"it" (line 23) has been changed to --the hood--.

Abstract:

~~The present patent application relates to a~~ A pedestrian safety device for automotive vehicle (1) having a hood (2) being hinged and releasably latched to the vehicle body. An actuator member (6) is arranged transversally inside the upper forward region of said the vehicle (1) and the ends of the actuator member respectively slideably hinged (11) in a respective inclining guide track (12a) extending rearwards within ~~said~~ the vehicle (1). The hinges (11) are arranged to carry a respective first lifting member (14) arranged to carry a respective first lifting member (14) arranged for vertical sliding in respect to the vehicle body. The first lifting members (14) are arranged below the hood (2) such that they will be brought to uplift the hood (2) in the region of its leading edge (2a) upon ~~said~~ the hinges (11) carrying it being translated up ~~said~~ the inclining guide tracks (12a) as a result of collision impact on ~~said~~ the actuator member (6).

3. The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

The latch mechanism **2c** and the grille opening reinforcement assembly **5a** have been added to **Figure 1**.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Art Unit: 3612

4. The following is an examiner's statement of reasons for allowance:

The recitations of the specific features of the pedestrian safety device in claim 1 including especially the construction of the hinge having an inclining guide track affixed to the vehicle body and extending rearwards within the vehicle; an actuator member arranged transversely inside an upper forward region of the vehicle and ends of the actuator member arranged transversely inside an upper forward region of the vehicle and the ends of the actuator member being slideably hinged in the inclining guide track and the ends of said actuator member being slideably hinged in a respective inclining guide track extending rearwards within the vehicle and being fixed to the vehicle body; a lifting member arranged for vertical sliding with respect to the vehicle body, the lifting member is arranged below the hood such that the lifting member will uplift the hood upon the hinges, the hood being translated up the inclining guide tracks as a result of a frontal collision impact on the actuator member causing the hood to be displaced rearwards within the vehicle is not taught nor is fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
